

Conservation easements help private landowners preserve natural resources, scenic open space, historic heritage, and rural character - some of the things that make Bluemont so special.

PRESENTED BY:

ABOUT US

The Land Trust of Virginia partners with private landowners who wish to voluntarily protect their working farmland and natural lands with significant scenic, historic, and ecological value using conservation easements.

Conservation easements protect open space, farms, forests, rivers, streams, battlefields, and historic sites before they disappear forever. Land protected by conservation easements remains in private ownership, can be sold, passed to heirs, and remains on county tax rolls.

Accredited since 2009 by the Land Trust Alliance Accreditation Commission, LTV is recognized as a land trust that meets national quality standards for protecting important natural places and working lands forever.

Now 20 years old, the Land Trust of Virginia is a thriving a 501 (c) (3) charitable organization, supported by annual membership dues, donations and grants.

*Join Us in
Conserving
Bluemont*

Many large tracts of land within the study area are unprotected - leaving Bluemont vulnerable to loss of natural, historic, and cultural resources.
