

# LIVING WITH NATURE

## Discovering the Rich Potential of Your Own Back Yard

Thursday, February 8

7:00– 9:00 PM

*Light refreshments served at 6:30,  
program starts promptly at 7:00.*

102 East German St.

War Memorial Building,

Shepherdstown, WV 25443

Join members of the Blue Ridge Conservation Alliance for an interactive discussion featuring excerpts from “Hometown Habitat,” a documentary that challenges traditional ideas about how we manage our properties and what we can do to promote biodiversity.

Attendees will participate in conversations about:

- the value of conscious stewardship for properties large & small
- new ways of thinking about landscaping to preserve existing features and attract desired birds, bees, & butterflies
- the importance of cultivating native plant species
- simple stewardship practices & resources for home or property owners

This event is FREE, but registration is required.
